

COVID-19

All our staff have been issued with Personal Protection Equipment (PPE) including gloves, aprons, surgical masks and eye protection. Social distancing and hand sanitisation procedures are also in place to give our customers peace of mind.

We wear a mask to protect you, please wear a mask to protect us.

Government advice on the public's use of PPE is continually changing. We are therefore following their guidance on wearing face coverings. You can check your local regulations before coming into our Outlets.
